### **DETAILED ACTION**

#### ***Allowable Subject Matter***

1. Claims 1-6, 9-17, 19, 20, 22-25, 27, 29-31, 35-43 and 45-59 are allowed.

The following is an examiner's statement of reasons for allowance: the references of record, either alone, or in combination, do not teach or suggest at least the limitations of: having a combiner that sends signals to the first or second power sources indicating that the combiner is operative to produce a high power output (independent claims 1, 54 & 58); nor the limitations of a combiner that transmits a mode signal to a powered device, wherein the powered device operates alternately in low and high power mode responsive to the mode signal transmitted by the combiner (independent claims 27, 51, & 56); nor the limitations of the steps of sensing an unsuccessful combining, comparing a received power signal to a reference, and supplying low power in response to said comparing (independent claim 43).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
